

ARCS Policy on Free and Reduced Registration Fees

- ARCS wants to recognize the hard work of volunteers at the Committee Chair and Committee member levels, while also recognizing that membership fees and event registrations are our largest sources of necessary income
- ARCS Board members will not receive free or reduced membership fees or registration fees for webinars, workshops, conferences, etc.
- Webinars are defined as online programs. Workshops are defined as in-person programs.
- Having just moved to a tiered membership model, it would be advantageous to have a couple years' data available before offering discounted or otherwise reduced memberships o volunteers
- The following discounts are proposed in order to provide perks for our volunteers based on the programs they work on and the level of effort provided to ARCS each year. Each perk will be provided once per fiscal year, assuming that the Chair or committee member is in good standing with ARCS and participating in the work of the committee they are on.
- Free workshop registration does not include travel costs or per diem.

ARCS Volunteer Role	Free or Discounted Perk	Alternative Perk
Board	None
